LETTER FROM THE BOARD

The purpose of this circular is to provide you with information regarding, among other things, details of the Purchase Contracts and the transactions contemplated thereunder.

BACKGROUND

On 14 August 2019, the Purchaser and the Supplier entered into the Purchase Contract I regarding the purchase of 3 sets of wind power electricity generation equipment at a total consideration of RMB26,220,000, by the Purchaser from the Supplier for the wind farm project I of the Group in Heilongjiang Province, the PRC. The Board is pleased to announce that since additional sets of wind power electricity generation equipment are required for the wind farm project I, on 13 November 2019, the Purchaser and the Supplier entered into the Supplemental Agreement to the Purchase Contract I to purchase 17 sets of wind power electricity generation equipment at a consideration of RMB155,380,000 and thus increase the total consideration payable by the Purchaser to RMB181,600,000.

The Board is also pleased to announce that on 13 November 2019, the Purchaser and the Supplier entered into (i) the Purchase Contract II regarding the purchase of 60 sets of wind power electricity generation equipment at a total consideration of RMB569,400,000, by the Purchaser from the Supplier for the wind farm project I of the Group in Heilongjiang Province, the PRC; and (ii) the Purchase Contract III regarding the purchase of 20 sets of wind power electricity generation equipment at a total consideration of RMB189,800,000, by the Purchaser from the Supplier for the wind farm project II of the Group in Heilongjiang Province, the PRC.

PURCHASE CONTRACT I

The principal terms of the Purchase Contract I are summarised as follows:

Date : 14 August 2019

Parties : Purchaser: Tianjin Century Concord Huaxing Wind Power Equipment Co., Ltd.* (天津協合華興風電裝備有限公司); and

Supplier: Zhejiang Windey Co., Ltd.* (浙江運達風電股份有限公司)

LETTER FROM THE BOARD

- Subject** : The Purchaser agreed to buy from the Supplier 3 sets of wind power electricity generation equipment for the wind farm project I of the Group in Heilongjiang Province, the PRC, including turbines, electricity generation systems, control systems hardware and software, and ancillary equipment etc.
- Consideration** : RMB26,220,000. The amount of consideration also includes fees in relation to, inter alia, technical support services to be provided by the Supplier, tax payment, delivery and insurance costs.

On 13 November 2019, the Purchaser and the Supplier entered into the Supplemental Agreement to the Purchase Contract I to purchase additional 17 sets of wind power electricity generation equipment at a consideration of RMB155,380,000 and thus increase the total consideration payable by the Purchaser to RMB181,600,000.

The following table sets out the details of the wind power electricity generation equipment supplied under the Purchase Contract I:

Model	Height (meter)	Quantity (set)	Unit price (RMB/KW)
WD140-2500	100	3	3,496
WD140-2500	100	17	3,656

The amount of the total consideration payable by the Purchaser is on normal commercial terms and is agreed after arm's length negotiation with reference to the market unit price and quantity of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied as set out in the Purchase Contract I (as supplemented and amended by the Supplemental Agreement). The Purchase Contract I dated 14 August 2019 was entered into after arm's length negotiations between the Supplier and the Purchaser with reference to the planned progress of the wind farm project I of the Group in Heilongjiang Province, the PRC. The Supplemental Agreement was entered into after the Group's tender process and among the quotations obtained therein, the Supplier proposed the lowest quotation price. In determining the market unit price, the Group considered the unit price charged by various suppliers in the PRC during the tender process. Upon comprehensively considering the unit price and the model of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the selection of the Supplier and the total consideration payable by the Purchaser under the Purchase Contract I is fair and reasonable. The payment of consideration to be made by the Purchaser by instalment will be based on the stages of completion of the Purchase Contract I. The consideration will be payable by wire transfer or bank acceptance bills, which will be financed by internal resources of the Group and/or borrowings.

LETTER FROM THE BOARD

According to the Purchase Contract I (as supplemented and amended by the Supplemental Agreement), within 15 days from the effective date of the Purchase Contract I, the Supplier shall pay to the Purchaser 10% of the total consideration as irrevocable performance guarantee for any breach of its obligations under the Purchase Contract I, which shall be refunded to the Supplier within 30 days upon entering into the warranty period of all wind power electricity generation equipment.

The Supplier will provide a warranty period of 2 years in respect of the wind power electricity generation equipment supplied. Given that the Supplier proposed the lowest quotation price during the aforesaid tender process and upon comprehensively considering and comparing the overall costs of the equipment purchase and the quality of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the overall proposal of the Supplier is the most cost-effective one, the warranty period proposed by the Supplier is subsequently agreed by the Group.

PURCHASE CONTRACT II

The principal terms of the Purchase Contract II are summarised as follows:

- Date : 13 November 2019
- Parties : Purchaser: Tianjin Century Concord Huaxing Wind Power Equipment Co., Ltd.* (天津協合華興風電裝備有限公司); and
Supplier: Zhejiang Windey Co., Ltd.* (浙江運達風電股份有限公司)
- Subject : The Purchaser agreed to buy from the Supplier 60 sets of wind power electricity generation equipment for the wind farm project I of the Group in Heilongjiang Province, the PRC, including turbines, electricity generation systems, control systems hardware and software, and ancillary equipment etc.
- Consideration : RMB569,400,000. The amount of consideration also includes fees in relation to, inter alia, technical support services to be provided by the Supplier, tax payment, delivery and insurance costs.

LETTER FROM THE BOARD

The following table sets out the details of the wind power electricity generation equipment supplied under the Purchase Contract II:

Model	Height (meter)	Quantity (set)	Unit price (RMB/KW)
WD140-2500	100	45	3,796
WD147-2500	100	15	3,796

The amount of the total consideration payable by the Purchaser is on normal commercial terms and is agreed after arm's length negotiation with reference to the market unit price and quantity of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied as set out in the Purchase Contract II. The Purchase Contract II was entered into after the Group's tender process and among the quotations obtained therein, the Supplier proposed the lowest quotation price. In determining the market unit price, the Group considered the unit price charged by various suppliers in the PRC during the tender process. Upon comprehensively considering the unit price and the model of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the selection of the Supplier and the total consideration payable by the Purchaser under the Purchase Contract II is fair and reasonable. The payment of consideration to be made by the Purchaser by instalment will be based on the stages of completion of the Purchase Contract II. The consideration will be payable by wire transfer or bank acceptance bills, which will be financed by internal resources of the Group and/or borrowings.

According to the Purchase Contract II, within 15 days from the effective date of the Purchase Contract II, the Supplier shall pay to the Purchaser 10% of the total consideration as irrevocable performance guarantee for any breach of its obligations under the Purchase Contract II, which shall be refunded to the Supplier within 30 days upon entering into the warranty period of all wind power electricity generation equipment.

The Supplier will provide a maximum warranty period of 5 years in respect of the wind power electricity generation equipment supplied. Given that the Supplier proposed the lowest quotation price during the aforesaid tender process and upon comprehensively considering and comparing the overall costs of the equipment purchase and the quality of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the overall proposal of the Supplier is the most cost-effective one, the warranty period proposed by the Supplier is subsequently agreed by the Group.

LETTER FROM THE BOARD

PURCHASE CONTRACT III

The principal terms of the Purchase Contract III are summarised as follows:

- Date : 13 November 2019
- Parties : Purchaser: Tianjin Century Concord Huaxing Wind Power Equipment Co., Ltd.* (天津協合華興風電裝備有限公司); and
Supplier: Zhejiang Windey Co., Ltd.* (浙江運達風電股份有限公司)
- Subject : The Purchaser agreed to buy from the Supplier 20 sets of wind power electricity generation equipment for the wind farm project II of the Group in Heilongjiang Province, the PRC, including turbines, electricity generation systems, control systems hardware and software, and ancillary equipment etc.
- Consideration : RMB189,800,000. The amount of consideration also includes fees in relation to, inter alia, technical support services to be provided by the Supplier, tax payment, delivery and insurance costs.

The following table sets out the details of the wind power electricity generation equipment supplied under the Purchase Contract III:

Model	Height (meter)	Quantity (set)	Unit price (RMB/KW)
WD140-2500	100	15	3,796
WD147-2500	100	5	3,796

The amount of the total consideration payable by the Purchaser is on normal commercial terms and is agreed after arm's length negotiation with reference to the market unit price and quantity of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied as set out in the Purchase Contract III. The Purchase Contract III was entered into after the Group's tender process and among the quotations obtained therein, the Supplier proposed the lowest quotation price. In determining the market unit price, the Group considered the unit price charged by various suppliers in the PRC during the tender process. Upon comprehensively considering the unit price and

LETTER FROM THE BOARD

the model of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the selection of the Supplier and the total consideration payable by the Purchaser under the Purchase Contract III is fair and reasonable. The payment of consideration to be made by the Purchaser by instalment will be based on the stages of completion of the Purchase Contract III. The consideration will be payable by wire transfer or bank acceptance bills, which will be financed by internal resources of the Group and/or borrowings.

According to the Purchase Contract III, within 15 days from the effective date of the Purchase Contract III, the Supplier shall pay to the Purchaser 10% of the total consideration as irrevocable performance guarantee for any breach of its obligations under the Purchase Contract III, which shall be refunded to the Supplier within 30 days upon entering into the warranty period of all wind power electricity generation equipment.

The Supplier will provide a warranty period of 5 years in respect of the wind power electricity generation equipment supplied. Given that the Supplier proposed the lowest quotation price during the aforesaid tender process and upon comprehensively considering and comparing the overall costs of the equipment purchase and the quality of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied, the Board is of the view that the overall proposal of the Supplier is the most cost-effective one, the warranty period proposed by the Supplier is subsequently agreed by the Group.

The unit price of each machinery, equipment or forming part of the wind power electricity generation equipment to be supplied under the Purchase Contract I (as supplemented and amended by the Supplemental Agreement), Purchase Contract II and Purchase Contract III is determined and proposed by the Supplier with reference to the costs of production, overall delivery schedule and its production capacity. Pursuant to the policy of “cancellation of subsidies” in the wind power generation industries issued by the National Development and Reform Bureau of the PRC in May 2019, certain wind power projects listed in the existing subsidy catalogue will not be entitled to any governmental subsidies the latest by the end of 2021 if the grid connections are not completed within specific deadline. In order to be entitled to the governmental subsidies before the cancellation, the construction progress of relevant wind farm projects in the PRC have been accelerated in order to complete the grid connection as soon as possible. As a result, the market demands for the wind power electricity generation equipment increases rapidly and the costs for purchasing the wind power electricity generation equipment are subject to an upward adjustment risk in a short period of time. The later the equipment is supplied as closer to the time specified for the subsidies cancellation, the more expensive it will cost due to the increasingly market demands for the wind power electricity generation equipment. The

LETTER FROM THE BOARD

delivery schedule of the equipment under the Supplementary Agreement is later than that under the Purchase Contract I. The delivery schedule of the equipment under the Purchase Contract II and the Purchase Contract III is later than that under the Supplementary Agreement. Given that the Supplier proposed the lowest quotation price and the most cost-effective package during the aforesaid tender process for the Supplemental Agreement, the Purchase Contract II and the Purchase Contract III, after comprehensively considering the supplying package and the projects progress of the Group as a whole, the Board is of the view that the unit prices proposed by the Supplier under the Purchase Contract I (as supplemented and amended by the Supplemental Agreement), the Purchase Contract II and the Purchase Contract III are fair and reasonable and are subsequently agreed by the Group.

INFORMATION OF THE PARTIES TO THE PURCHASE CONTRACTS

The Company and the Purchaser

The Company is a company incorporated in Bermuda with limited liability and its shares are listed on the Main Board of the Stock Exchange. The Group is principally engaged in (i) investing in wind and solar power projects; and (ii) offering professional technical services and integrated solutions to the wind and solar power generation projects.

The Purchaser is a wholly-owned subsidiary of the Company and is principally engaged in the trading of equipment for new energy.

The Supplier

The Supplier is a supplier of wind power machinery and equipment in the PRC.

To the best of the Directors' knowledge, information and belief after having made all reasonable enquiries, the Supplier and its ultimate beneficial owner, the People's Government of Zhejiang Province, the PRC, are third parties independent to the Company and its connected persons (as defined under the Listing Rules).

REASONS FOR AND BENEFIT OF THE TRANSACTIONS

It is in the ordinary and usual course of business of the Group to build wind power plants in the PRC, including, among other projects, the subject projects in Heilongjiang Province, the PRC. The purchase of the machinery and equipment from the Supplier under the Purchase Contracts represent part of the Group's ordinary investments in its wind power projects.

LETTER FROM THE BOARD

The Group evaluated the terms of the respective contracts based on, among other factors, the specifications and needs of the Group, the credentials and experience of the Supplier, the quality of the products to be supplied by the Supplier, the services agreed to be rendered by the Supplier, the products warranty provided by the Supplier and the terms offered by other suppliers to the Group.

The Directors (including the independent non-executive Directors) consider that the overall terms offered by the Supplier under the Purchase Contracts are fair and reasonable and are in the interests of the Company and its Shareholders as a whole.

LISTING RULES IMPLICATIONS

At the time when the Purchase Contract I was entered into, as none of the applicable percentage ratios exceeded 5%, the transaction contemplated thereunder did not constitute a discloseable transaction of the Company under Chapter 14 of the Listing Rules. References are made to the announcements of the Company dated 23 May 2019 and 16 July 2019 in relation to the Previous Purchases. As the transactions contemplated under the Purchase Contract I and the Previous Purchases are conducted within a 12-month period, the transactions shall be aggregated under Chapter 14 of the Listing Rules. At the time when the Purchase Contract I was entered into, the transactions contemplated thereunder and the transactions contemplated under the Previous Purchases when aggregated did not result in a higher transaction classification and therefore is not subject to additional requirements under Chapter 14 of the Listing Rules. Pursuant to the Supplemental Agreement, as one or more of the applicable percentage ratio(s) (as defined under the Listing Rules) in respect of the transaction contemplated thereunder exceed(s) 5% but is/are less than 25%, the transaction contemplated under the Purchase Contract I has become a discloseable transaction of the Company and is thus subject to the reporting and announcement requirements under Chapter 14 of the Listing Rules.

As one or more of the applicable percentage ratio(s) (as defined under the Listing Rules) in respect of the transaction contemplated under each of the Purchase Contract II and the Purchase Contract III exceed(s) 5% but is/are less than 25%, the transaction contemplated under each of the Purchase Contract II and the Purchase Contract III constitutes a discloseable transaction of the Company and is thus subject to the reporting and announcement requirements under Chapter 14 of the Listing Rules.

LETTER FROM THE BOARD

References are made to the announcements of the Company dated 23 May 2019 and 16 July 2019 in relation to the Previous Purchases. As the transactions contemplated under the Purchase Contracts and the Previous Purchases are conducted within a 12-month period, the transactions shall be aggregated under Chapter 14 of the Listing Rules. As one or more of the applicable percentage ratio(s) (as defined under the Listing Rules) in respect of the transactions contemplated under the Purchase Contracts and the Previous Purchases in aggregate exceed(s) 25% but is/are less than 100%, the transactions contemplated under the Purchase Contracts and the Previous Purchases in aggregate constitute a major transaction of the Company and are thus subject to the reporting, announcement, circular and shareholders' approval requirements under Chapter 14 of the Listing Rules.

To the best knowledge, information and belief of the Directors having made all reasonable enquiries, no Shareholder has a material interest in the transactions contemplated under the Purchase Contracts and is required to abstain from voting on the relevant resolution(s) at the special general meeting of the Company.

SPECIAL GENERAL MEETING

The SGM shall be held at 10:00 a.m. on Saturday, 21 December 2019 at Suite 3901, 39th Floor, Far East Finance Centre, 16 Harcourt Road, Admiralty, Hong Kong, for the purpose of considering and, if thought fit, approving, among other things, the Purchase Contracts and the transactions contemplated thereunder. A notice convening the SGM and a form of proxy for use at the SGM are enclosed herewith. Whether or not you are able to attend the SGM, you are requested to complete and return the form of proxy in accordance with the instructions printed thereon to the Company's branch share registrar and transfer office in Hong Kong, Tricor Tengis Limited at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong not less than 48 hours before the time fixed for holding of the SGM. Completion and return of the form of proxy will not preclude you from attending and voting at the SGM or any adjourned meeting should you so desire.

In compliance with the Listing Rules, all resolution(s) put to vote at the SGM will be decided by way of poll.

LETTER FROM THE BOARD

RECOMMENDATION

The Directors (including the independent non-executive Directors) consider that the terms of the Purchase Contracts and the transactions contemplated thereunder are on normal commercial terms, fair and reasonable and in the interest of the Company and the Shareholders as a whole. Accordingly, the Directors recommend the Shareholders to vote in favour of the resolution(s) to be proposed at the SGM.

ADDITIONAL INFORMATION

Your attention is drawn to the information set out elsewhere in this circular and in the appendices to it.

Your faithfully,
For and on behalf of
Concord New Energy Group Limited
Liu Shunxing
Chairman

In addition, the Group had issued the bonds to third parties of approximately RMB1,932,680,000.

Save as aforesaid and apart from intra-group liabilities, as at the close of business on 31 October 2019, the Group did not have any other outstanding mortgages, charges, debentures, loan capital, bank loans or overdrafts, debt securities or other similar indebtedness, finance leases or hire purchase commitments, liabilities under acceptances or acceptance creditors, guarantees, or other material contingent liabilities.

3. WORKING CAPITAL

The Directors, after due and careful enquiry, are of the opinion that taking into account of the financial resources available to the Group including internally generated funds and the available banking facilities and in the absence of unforeseen circumstances, the Group will have sufficient working capital for its present requirements, that is for at least the next twelve months from the date of this circular.

4. MATERIAL ADVERSE CHANGE

As at the Latest Practicable Date, the Directors confirmed that they are not aware of any material adverse change in the financial or trading position of the Group since 31 December 2018, being the date to which the latest published audited financial statements of the Group were made up.

5. FINANCIAL EFFECTS OF ENTERING INTO THE PURCHASE CONTRACTS ON THE GROUP

The purchases under the Purchase Contracts will be financed by internal resources of the Group and/or borrowings.

The total consideration under the Purchase Contract I, Purchase Contract II and the Purchase Contract III are RMB181,600,000, RMB569,400,000 and of RMB189,800,000, respectively.

The purchase under the Purchase Contracts will result in an increase in the non-current assets of the Group and result in (i) a decrease in cash and cash equivalents of the Group (if the purchase is wholly financed by internal resources of the Group) or (ii) an increase in the indebtedness of the Group (if the purchase is wholly financed by borrowings) or (iii) a decrease in cash and cash equivalents and an increase in the indebtedness of the Group (if the purchase is financed by a combination of internal resources of the Group and borrowings).

The equipment is necessary for the development of wind farm projects of the Group in Heilongjiang Province, the PRC, which is expected to enhance the earnings prospects of the Group.

6. FINANCIAL AND TRADING PROSPECT OF THE GROUP

In the first half of 2019, the Group's principal power generation business robustly grew with high safety and efficiency, power generation output and profit were both higher than expected. All new businesses such as Energy IoT, intelligent operation & maintenance ("O&M"), energy storage and financing lease were speedily propelled as planned. Beneficial from accurate research and judgement for new energy policy, the Group gained well in respect of resources storage and project approval, which underlain the development this year and next.

According to the interim report for the six months ended 30 June 2019, the power generation output attributable to the Group was 2,403.0GWh (1H 2018: 1,862.3GWh), representing an increase of 29.0% over the same period last year, of which, wind power generation output was 2,139.0GWh (1H 2018: 1,635.0GWh), representing a growth of 30.8% over the same period last year, while solar power generation output was 264.2GWh (1H 2018: 227.32GWh), representing a growth of 16.2% over the same period last year. In the first half of 2019, the Group newly signed contracts for wind resources of 3,682MW and solar resources of 868MW in total, assuring construction and sustainability development of the Group's subsequent projects. The Directors are of the view that the wind power business will continue to be an important source of income to the Group and create value and benefit for the Shareholders. Therefore, the Company will continue its focus and effort to develop the Group's wind power business and continue to explore potential investment and cooperation opportunities in the PRC.

During the first half of 2019, the implementation of the primary ancillary policies related to renewable energy law of the PRC has been completed in main, which guiding the renewable energy industry to a bright prospect. Since the resources in the northern regions were abundant and power curtailment mitigated, the Group timely measured the northern wind and solar resources, and considered most of the northern regions are satisfied for the conditions of grid-parity. The Group put more efforts on projects development and speed up the construction progress in northern regions, and all the new construction projects are highly profitable. Afterwards, with wind turbines technology being advanced, solar power modules' price dropping and transformational efficiency heightened as well as enhanced level of industrial scale, centralization and marketization, the era of grid parity of renewable energy has come in advance.

In recent years, the Group has optimized its assets quality, transformed operating model and adjusted its investment strategies with accurate strategies for development and operation. With its largely increased capability, the Group has successfully addressed various changes in the external operating environment. In the second half of 2019, the Group will insist on sparing great efforts in the development of renewable energy's industrial chain, as an investor as well as a service provider of renewable energy field. With focus on practical work and laborious efforts, the Group will continue to pursue the principle of healthy development, focusing on the strategies involving production safety, accelerating progress in project construction and operation, lowering LCOE, enhancing pre-development, expediting the construction of Energy IoT and intelligent O&M, optimizing asset structure and improving asset quality.

NOTICE OF SPECIAL GENERAL MEETING

Notes:

1. Any shareholder entitled to attend and vote at the meeting is entitled to appoint one or more proxies to attend and vote instead of him. A proxy need not be a shareholder of the Company.
2. In order to be valid, a form of proxy in the prescribed form together with the power of attorney or other authority (if any) under which it is signed must be deposited at the branch share registrar of the Company, Tricor Tengis Limited at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong not less than 48 hours before the time fixed for holding the meeting. Completion and return of the form of proxy will not preclude a shareholder of the Company from attending and voting in person at the SGM or any adjournment thereof, should he/she so wish. In such event, the instrument appointing a proxy shall be deemed to be revoked.
3. As at the date of this notice, the board of Directors comprises Mr. Liu Shunxing (Chairman), Ms. Liu Jianhong (Vice Chairperson), Mr. Yu Weizhou (Chief Executive Officer), Mr. Niu Wenhui, Mr. Gui Kai and Dr. Shang Li (all of above are executive Directors), Mr. Wang Feng (who is a non-executive Director) and Mr. Yap Fat Suan, Henry, Dr. Jesse Zhixi Fang, Ms. Huang Jian and Mr. Zhang Zhong (who are independent non-executive Directors).
4. As required under the Listing Rules, the above resolutions will be decided by way of poll.
